### 兼福 Life

如何使用会议家具适应各种不同场合，一直是设计上的较大挑战。我们尽量保证台面缝隙最小化，且配有颜色与功能相与之一致的电源数据线等功能配件，条状化桌脚，即保证提供有效支撑，又不至于繁复。多功能线盒可安装不同插座，连同桌底线槽，提供多媒体视讯解决方案。大空间桌底线槽，妥善处理好线路管理问题。

How to make the furniture in conference room suitable for various occasions is always a big challenge for design. We try our best to minimize the seams on the surface of the table, and equip it: the accessories of the same colors and functions with the function of power supply data etc, and strip table legs, not only ensuring the effective support, but also making look heavy and complicated. Multifunctional line box is applicable for various plugs, together with the wiring groove at the bottom of table, providing multimedia video solutions. Large area of wiring groove at the bottom of table handles the lines control problem properly.
